Edit Photos with filters, stickers, and other effects. I am using this app for approximately one month. I am very happy that this is the Indian app and I support this app instead of using fb or insta. Sharechat team you need to update this app as soon as possible. Features require 1) Photo/video gallery send option in chats to iOS. 2) Able to save content from chat history such as audio, photos and videos. 3) Link/text copy option in chats 4) The most imp: update your server. Most of the time you are unable to contact the server when sending chat texts. 5) Being able to see our followers/followers are online or not. 6) If someone is typing msg into the chat, we should see that they are typing. 7) The opening of applications is slow. You need to fix this option. 8) to open hyperlinks in other browsers like chrome/youtube. 9) As these updates require badly. Thanks Hi share share chat is the best app but i can't start sharing chat on iPhone 4s iso problem please solve this problem. I hope you solve this problem as soon as possible. Then I sent the report three times, but no one solves my problem. Please solve my problem. Thanks Overall, the app is good, but the problem that shows the network problem sometimes and I get annoyed by it... and now I am not able to log into my account through my phone number... after receiving the otp and entering the otp the page will no longer go far it there after closing the recent application and then visiting again for the application shows no internet connection please check this issue and resolve as soon as possible The developer, MOHALLA TECH PRIVATE LIMITED, has not provided details about their privacy and data handling practices for Apple.
